WHAT IS THE LOVE QUEST?

The Love Quest is an entertainment and educational program designed to explore your personality, and let you know how you compare to other individuals. **The Love Quest** will even allow you to meet other individuals around the country. **The Love Quest** is centered around its specific questionnaire. This questionnaire, written by relationship experts, will allow **The Love Quest** to identify, and catalogue your personality, and then let you and others find out things you may never have known about yourself.

The questionnaire uses complicated scoring formulas to analyze and classify your personality in many different areas. In fact, if you attempted to hand score **The Love Quest** test, it would literally take hours to do what the program does in seconds. After **The Love Quest** obtains the information it needs on you, it stores this information in its permanent files, and then issues you a personal and unique Love Quest code.

Before taking **The Love Quest** questionnaire you should read the section of this manual entitled 'Test Taking Attitudes'. Then following the instructions contained herein, you will take **The Love Quest** test. The test will then allow you to find out some facts about yourself, compare yourself to other individuals, find out who you are most compatible with, and discover your Love Quest personal code.

Read through this manual carefully before beginning **The Love Quest**. Then you will be ready to use **The Love Quest**. After that its up to you!

IMPORTANT NOTE:

Since **The Love Quest** is published in several different computer formats (eg. IBM, Apple, Commodore, etc.) we have included specific **Getting Started** and Loading instructions as an addendum with this manual. Please read these instructions carefully to load **The Love Quest** into your computer.

Your addendum will also contain information as to which disks are supplied with your program format.

USING THE LOVE QUEST

Following the loading and opening graphics you will be presented with a menu of assorted functions. **The Love Quest** "Main Menu" will appear as below:

```
WELCOME TO
THE LOVE QUEST

1. Instructions On the Love Quest
2. Create Your Love Quest Profile
3. Find Out Some Facts About Yourself
4. Access The Love Quest Compatibility
   Section
5. Discover/Delete Your Love Quest Code
6. Exit The Love Quest

EnterYourNumberSelection = = >

Program (C) IntraCorp. 1986, All Rights
Reserved. Ver. 2.1
Portions (C) Microsoft Corporation 1982,
All Rights Reserved.
```

Please note:

When loading and using your disks the program will prompt you as to which disk to insert in your drive (in the event that your program is supplied on two disks). Follow these instructions, as well as the instructions for disk handling, that are contained in your computer owner's manual.

Also note that certain computer types (eg. Apple) do not contain function keys (F1, F2, etc.) However, in this case you will simulate function keys by using the Control A key for F1, Control B key for F2, etc. Please see your Start-Up addendum and on-screen prompts for more specific information particular to your computer.

The "Main Menu" contains menu selections which define general functions available from The Love Quest program. These menu selections will be described in detail in this section. In order to select a choice from the "Main Menu", simply enter the corresponding number located to

USING THE LOVE QUEST

the left of the menu selections. The “Main Menu” choices are as follows:

Instructions on **The Love Quest**

Create Your Love Quest Profile

Find Out Some Facts About Yourself

Access the Love Quest Compatibility Section

Discover/Delete Your Love Quest Code

Exit **The Love Quest**

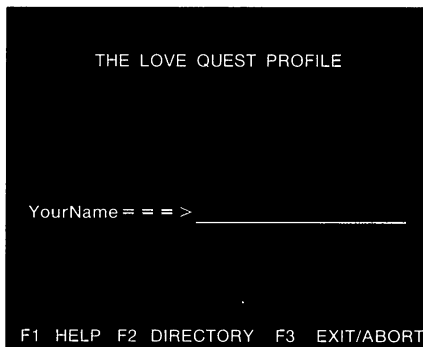

The specific functions included within each of these menu selections now will be reviewed separately.

Instructions on Using The Love Quest

Provides general instructions on how to use the program and interface with this manual.

Create Your Love Quest Profile

After reading the “welcome” screen for this section of the program please press any key to proceed to the next screen. Press any key and **The Love Quest** Profile Screen will appear as below:

```
THE LOVE QUEST PROFILE

YourName == => _____

F1  HELP  F2  DIRECTORY  F3  EXIT/ABORT
```

USING THE LOVE QUEST

Notice that on the bottom of the screen you are given three choices:

F1 Help: Pressing the **F1** key provides instructions on the password and name selection. Press any key to return to the profile create screen.

F2 Directory: Pressing the **F2** key lists persons stored in **The Love Quest** program. Note, the name you give the program for a new profile cannot be the same as any other name contained in the directory. For example, if you want to use the name "Bob" and "Bob" is already listed in the directory, you could call yourself "Bob1" or "BobA". Press any key to return to the profile create screen.

F3 Exit/Abort: Pressing the **F3** key will abort the profile creation and exit you back to the "Main Menu".

Now, type in the name you wish to be used as the file name under which your questionnaire responses will be coded and stored. **It is important that the name that you choose is not a duplicate of any other name presently listed in the directory.** (If you have picked another name already listed, the program will inform you of that fact!)

Note: In case you make an error in entering your response, you can go back and erase by using the backspace key on the computer.

After typing in the name selected and pressing the return or enter key, you will be asked if you wish to password protect your profile. If you wish to preserve the confidentiality of this information you should type the letter Y. If you do not care about others accessing your profile, etc. you should type the letter N.

If you have elected to password protect your file, then you should now type in a 10 digit code of letters or numbers, (for instance STARFIRE, or 1234567890). Please note that you will not see this password until you are through typing it. You will be pleased to know that with the information coded the chances of someone accessing your information are more then one in a

USING THE LOVE QUEST

million. **On the other hand, unless you now write down this password code, your chances are the same!**

After you have selected a Password please type in Y to advance to the questionnaire. If the information on the screen is incorrect type N and you will again be required to re-enter the above information.

On the next several Love Quest screens you will be asked to furnish some personal information including your sex, and sexual preferences. Notice that the shading is on the word male, and that you can select your choice by using the up and down arrows. Notice also that pressing the **F1** key will give you further help on using **The Love Quest** questionnaire. Pressing the **F3** key will exit you from the questionnaire, and return you to the "Main Menu". Please note that if you exit the questionnaire before it has ended all data from the questions will be lost, and you will have to complete the questionnaire again.

After filling in your sex, and sexual preference, please press the enter or return key. Notice that the next screen appears and asks you if you will be using **The Love Quest** for obtaining partners with **The Love Quest's** national data bank. If you plan on sending in your Love Quest code to obtain information on a person most compatible to you, (see the section on 'Using the National Data Bank' in this manual for more details on **The Love Quest** National Data Bank), please answer yes. If you plan on just using **The Love Quest** for your personal use, and will not need **The Love Quest** code, then answer no. The next several questions will ask you some personal information on yourself. If you are using **The Love Quest** to contact other individuals around the country, then **The Love Quest** will use this information to match you up **according to the information entered here and in other sections of the questionnaire**. Commencing at question 11 you will start to answer **The Love Quest** questions that the program will analyze. These questions will allow **The Love Quest** to really know your personality, tell you facts about yourself, and of course compare you to other individuals (not to mention locating for you, the perfect person!).

USING THE LOVE QUEST

Note: At this time if you have not read the section of this manual entitled "Test-Taking Attitudes" and "Nature of Questionnaire Items" please do so before proceeding.

During **The Love Quest** test you will always observe that the item choice "A" for each question is highlighted as the screen appears on the monitor. This indicates that the questionnaire is in the "initialized" position . **However be aware that this first response category is intentionally not set up as a default response.** To move to another choice, you must use the up and down arrows on your keyboard. If you are on the last choice of a question you may press the up arrow key to get back to the first choice. Conversely, if you are on the first position of a question you may press the down arrow to get back to the last position. Once you have moved the highlighted area to the preferred choice, depress the return key to enter that selection. Upon pressing the return key, the screen will jump to the next question. After, completing all questions in **The Love Quest** test you will be presented with the statement:

About To Save All Answers to Disk

Please press Return to save your Love Quest profile. The program will now indicate that it is Saving your Profile. Please note that you must save your profile to disk when the program instructs you that it is "About to Save all Answers". Attempting to abort the save will cause this profile to be improperly stored in the program's directory.

If you indicated you will be using **The Love Quest** to obtain a person from the National data bank, you will now be given your Love Quest personal code as shown in the screen below. This code is unique to you, and may be used to obtain **The Love Quest** match. (See the section on 'Using the National Data Bank' in this manual for more details on **The Love Quest** National Data Bank).

USING THE LOVE QUEST

Your Love Quest Personal Code is as Follows

11111113-53133734-1111

This important code should be immediately written down. You will only be able to obtain this code with your Password under section 5 of Main Menu.

Your Love Quest Code can either be mailed or telecommunicated to IntraCorp. (See Box). This code will enable the Love Quest Computer to match you with other individuals all around the Nation.

GOOD LUCK WITH THE LOVE QUEST

Press Any Key to Proceed to Main Menu

If you indicated you will be not be using **The Love Quest** to obtain a person from the National data bank, you will now be returned to the "Main Menu."

Please note that your program will store up to 100 profiles in the directory. When you reach 100 the program will notify you of this fact, and you will have to delete profiles by using selection #5 from the "Main Menu".

FIND OUT SOME FACTS ABOUT YOURSELF

When you select this choice you will receive a screen asking you for your name.

LOVE QUEST

FIND OUT ABOUT YOURSELF

YourName = = = > _____

F1 HELP F2 DIRECTORY F3 EXIT/ABORT

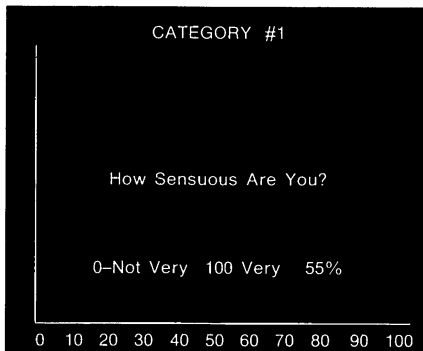

USING THE LOVE QUEST

Notice that on the bottom of the screen you are given two choices:

F2 Directory: Pressing the F2 key lists the persons stored in **The Love Quest** program.

Pressing the **F3** key will exit you back to the "Main Menu."

Now type in the exact name of the profile that you wish to review. The program will prompt you for the password for this particular file. (If a password is needed you must type the exact password on the screen and the password must be typed in the same case (upper or lower letters) that it was originally entered in.) For security reasons, you will not be able to see this password while typing it.) The program will now proceed to the first category of bar graphs.

The bar graph you see shows your score in 10 categories. The shaded area of the bar graph indicates where the person selected for review fits into each relative category. If you wish to review another bar graph press any key. After reviewing all the bar graphs the program will return automatically to the "Main Menu".

ACCESS THE LOVE QUEST COMPATIBILITY SECTION

When you select this choice you will receive a screen asking you for your name. Notice that on the bottom of the screen you are given two choices:

USING THE LOVE QUEST

F2 Directory: Pressing the **F2** key lists the persons stored in **The Love Quest** program.

F3 Exit/Abort: Pressing the **F3** key will exit you back to the "Main Menu".

Now type in the exact name of the profile that you wish to review. The program will prompt you for the password for this particular profile. (If a password is needed you must type the exact password on the screen. For security reasons, you will not be able to see this password while typing it.) The program will now ask you for the 2nd name you wish to enter. Again if a password is required you will be prompted for this information.

You will now receive the first of several Love Quest graphs. This graphs represent the relative measure of compatibility of the two individuals whose names were specified. The graphs indicate relative compatibility scores for the individuals, and show by the shaded area a graphic representation of these scores.

After reviewing the bar graphs you will receive two explanation screens. After reading these screen press any key to continue. You will now be given, for the selected individuals, the compatibility scores in ten important areas. Please note that these scores and the screens that follow can be printed by pressing the **F10** key. If you are using your printer, please be sure that it is turned on, and on line, and that the paper is positioned properly, before striking the **F10** key.

The scores presented represent the relative compatibility between the individuals selected. A total compatibility score on the bottom of the screen represents an average of all compatibility scores. The next screen also tells how compatible the individuals are in certain 'lifestyle' areas. These areas include income, education, and sexual preference. (Please note that sexual preference denotes male heterosexuality, female heterosexuality, etc. When you are matched to another male heterosexual and you are a male heterosexual this category will indicate same. Only in the event you are matched to a different category then yourself (eg. male heterosexual matched to

USING THE LOVE QUEST

female heterosexual will the program produce a different notation.)

The screens that follow will give the two selected individuals important information on improving their relationship. The program will select files appropriate to the lowest areas of compatibility (under 50%) for the individuals. If the selected individuals are compatible by more than 50% in all areas, the program will notify the individuals of this fact.

After reviewing these screens the program will return you to the "Main Menu."

WILDCARDELECTION

The ability to have the program select a match for you from your databank based on its scoring criteria, is one of the most important features of the program. **The Love Quest** accomplishes this under the Wildcard selection.

When accessing **The Love Quest** compatibility section you will be asked for your name. On the first line you should enter the name you wish compatibility information for. Then enter any password information requested. (Keep in mind the password requirements specified earlier.) Now on the second name line type in the word **Wildcard**. When you press the return key the program will tell you that your Wildcard has been accepted.

```
THE LOVE QUEST
COMPATIBILITY SECTION

YourName = = = > JJ
2ndName = = = > WILDCARD
= = WILDCARD Accepted The Love Quest
will now ascertain from its Databank
who you are most Compatible with.

ENTER Y to EMPHASIZE Opposite Sex: ?

F1 HELP F2 DIRECTORY F3 EXIT/ABORT
```

USING THE LOVE QUEST

The program will now ask you to tell it if you want to be matched with someone of the opposite sex. If this is your wish type in a Y and press the return key. If you wish the program to select a match for you regardless of sex (eg. the person selected may be anyone of either sex stored in the databank) then type in a N and press the return key. The program will now select in seconds the person stored in **your** data bank that you are most compatible with. The program will then ask you to press any key to proceed to get the bargraphs, compatibility scores, and relationship screens based on your compatibility with this selected individual. The program will then return you to the "Main Menu".

Discover or Delete Your Love Quest Code

When you access this selection you will be asked to type a D to delete a profile from the directory, or a C to discover a Love Quest code.

DELETING A PROFILE

At the opening prompt you will type a D to enter the profile deletion section. There are two reasons why you may want to delete a file. You may wish to purge a profile from the disk to insure that no one (including yourself) will ever again have access to it. Or you may want to purge files from the disk at the point when you have stored close to 100 profiles on the disk. (This is the maximum number that can be stored on-line). Deleting profiles at this point will give you room to add additional 'new' profiles to the disk.

The program will then ask you for your name. Enter the name of the file that you wish to delete from the directory. If prompted enter the exact password for this file. (Remember that you must type in the password in the exact case (upper or lower letters) that it was originally stored in. The program will now show you that it is deleting the specified file and return you back to the delete to purge any other profiles. You will note that there are two prompts on the bottom of the delete entry screen.

USING THE LOVE QUEST

F2 Directory: Pressing the F2 key lists the persons stored in **The Love Quest** program.

F3 Exit/Abort Pressing the F3 key will exit you back to the "Main Menu."

DISCOVER YOUR LOVE QUEST CODE

When you type a C at the opening prompt of the Delete/Discover section you will be asked to enter your name. Enter the name of the person you wish **The Love Quest** code for. Then enter the password exactly as originally typed in. (Remember the password specifications as previously discussed.) The program will now give you **The Love Quest** code for the person specified. This code should be written down, and may be used to participate in the National Love Quest data bank. (Please see the section on 'Using the National Data Bank' in this manual for more details on **The Love Quest** National Data Bank.)

You will note that there are two prompts on the bottom of the discover entry screen.

F2 Directory: Pressing the F2 key lists the persons stored in **The Love Quest** program.

F3 Exit/Abort Pressing the F3 key will exit you back to the "Main Menu".

After you access the needed Love Quest code you may press any key to be returned back to the "Main Menu".

Exit The Love Quest

This "Main Menu" command allows you to exit **The Love Quest** and return to the DOS system commands. (On some computers it will be necessary to re-load DOS.)

USING THE LOVE QUEST NATIONAL DATA BANK

The Love Quest can put you in touch with hundreds of other people all around the country, or in your own town! The code that **The Love Quest** generates is unique to you. This code represents the information that the program has learned from your Love Quest test. This code can be transmitted to IntraCorp, Inc. and registered in our National Data Bank. This will allow our computers to match you up with someone compatible with you, and picked along the lines specified.

You may have noticed that the last several Love Quest questions ask you how you want your mate selected. Marital status, income, religion, education, etc. are all selections that you are asked to make. **The Love Quest** will use this information to pick someone for you that is closely matched to the specifications you indicated to the program.

With your purchase of **The Love Quest** you have the option of registering **for free** in **The Love Quest's** National Data Bank. This data bank will consist of thousands of men and women around the country that want to be in contact with each other. Your purchase of **The Love Quest** also entitles you to receive three **free** contact names from the data bank. And, of course with **The Love Quest** program, you will be in contact with someone that you already are sure to have things in common with!

To register in **The Love Quest** National Data Bank you must mail in the self-addressed postcard supplied with this program to IntraCorp, Inc. Please be sure to put your name, (you can use a fictitious name if you like) address, (this must be real but will only be given out on your instructions), and Love Quest Code. You must also include the serial number on your Love Quest Start Up disk. Remember, that only one purchaser per program can register in **The Love Quest** National Data Bank for free. However, if you wish to register other friends/family in the databank you can send the additional card supplied with their names and pertinent information. The fee for non-Love Quest program owners is \$30.00. This one time fee includes registration and three names from the National Data Bank.

USING THE LOVE QUEST NATIONAL DATA BANK

When registering for **The Love Quest** National Data Bank you must decide whether you want your address given out to people you are compatible with, or whether you wish mail to go through the IntraCorp office. If you choose to give your name out, any contact that is matched to you, will be given your registration name and address. From then on, that person will be free to directly contact you. If you choose to have mail forwarded through the IntraCorp office, you must check the appropriate box on the registration card. This mail forwarding service is \$10.00 to set up and \$2.00 for each piece of mail that we forward to you. If you wish the forwarding service **you must specify your credit card number on the registration form. Since you will be charged on a per piece basis and IntraCorp, Inc. does not know how many letters you will receive (a contact may write you every day, or once a month) all charges (\$2.00 per piece) will be charged to your credit account. We regret, but cash or checks can not be accepted for this mail forwarding service.**

If you have elected to use the mail forwarding service, your name and address will be assigned an account number. Only this number and your name will be given to the contact that you are matched with. This contact will be advised to write to you care of IntraCorp. Letters to you will be forwarded, unopened, to your address. Of course, if you want to save money, you should advise your contact of your mailing address once you feel comfortable with the person.

Once you register in **The Love Quest** National Data bank you will be sent up to three contacts as soon as the program selects persons suitable to your stated criteria. Depending on your criteria , you may receive names immediately, or names may take a while. Once you receive your three contact names, you may wish to still continue using the Data Base to communicate with other individuals. We have enclosed a card for you to request additional Data Base contacts. Additional contacts names are charged at \$15.00 per name. You may send cash or check for these names, or you may send in your credit card number. Please note that if you are using your credit card number, we will hold the credit card charges until your match is

USING THE LOVE QUEST NATIONAL DATA BANK

generated from the program. However, if you send check or cash, and IntraCorp Inc. can not locate a match for you along the lines specified, then IntraCorp, Inc. will return your money automatically 120 days after it was received. (If you were unable to locate a match)

The Love Quest starts now. Good luck!

Please note that IntraCorp, Inc. is solely relying on the information you and others provided in making data base matches. IntraCorp, Inc. assumes no liability for consequential or actual damages resulting in any Love Quest matches. IntraCorp, Inc. is giving out your name (and address if specified) only at your specific request. IntraCorp, Inc. makes no representations or warranties as to the quality of the names you will be given, or the character of the individuals in the DataBank. In registering for The Love Quest National Data Base you agree to specifically hold IntraCorp, Inc. and its employees and agents harmless from any damages that may result from your use of The Love Quest and The Love Quest National Data Base. IntraCorp, Inc. makes no representations as to the size of its National Data Base.

TEST TAKING ATTITUDES

As with all surveys or tests of a psychological nature it is extremely important that you are honest and consistent in your responses. Usually it is best to respond with the first thing that comes to your mind as a delayed response may be distorted by defensive alterations and attempts to appear "normal". This type of artificial response "set" will tend to result in a distorted and uninformative picture of your sexuality. **With regard to the questions used in The Love Quest, (especially personality questions), do not panic if you feel some questions do not have an answer that exactly classifies you. You need only pick the response that best answers the question.** In order to insure that respondents such as yourself are free to be honest and open, the creators of The Love Quest have provided for the confidential coding of your questionnaire responses with personal passwords. Hopefully, this will increase your degree of candor in answering the questions and ultimately lead you to enjoy the maximum benefits available from your Love Quest program.

NATURE OF QUESTIONNAIRE ITEMS

Another feature of psychological surveys and tests is the inclusions of questions which vary in terms of something called "face validity". As the name implies, face validity refers to the degree to which the question is asking what it really appears to be asking. Questions such as: "What is your name?", have a high face validity in that they are designed precisely to gain information about your name. However, low face validity questions such as, "Do you like to ride motorcycles?", may be designed to determine certain underlying features of your personality (eg. risk-taking, independence). Because your Love Quest questionnaire contains a mixture of high and low face validity questions, you may not understand the relevance of all of the questions. It is important for you to maintain the same test-taking attitudes, as mentioned in the previous section, for all types of questions which you encounter even if you are unable to see the merit of such questions.

TEST TAKING ATTITUDES

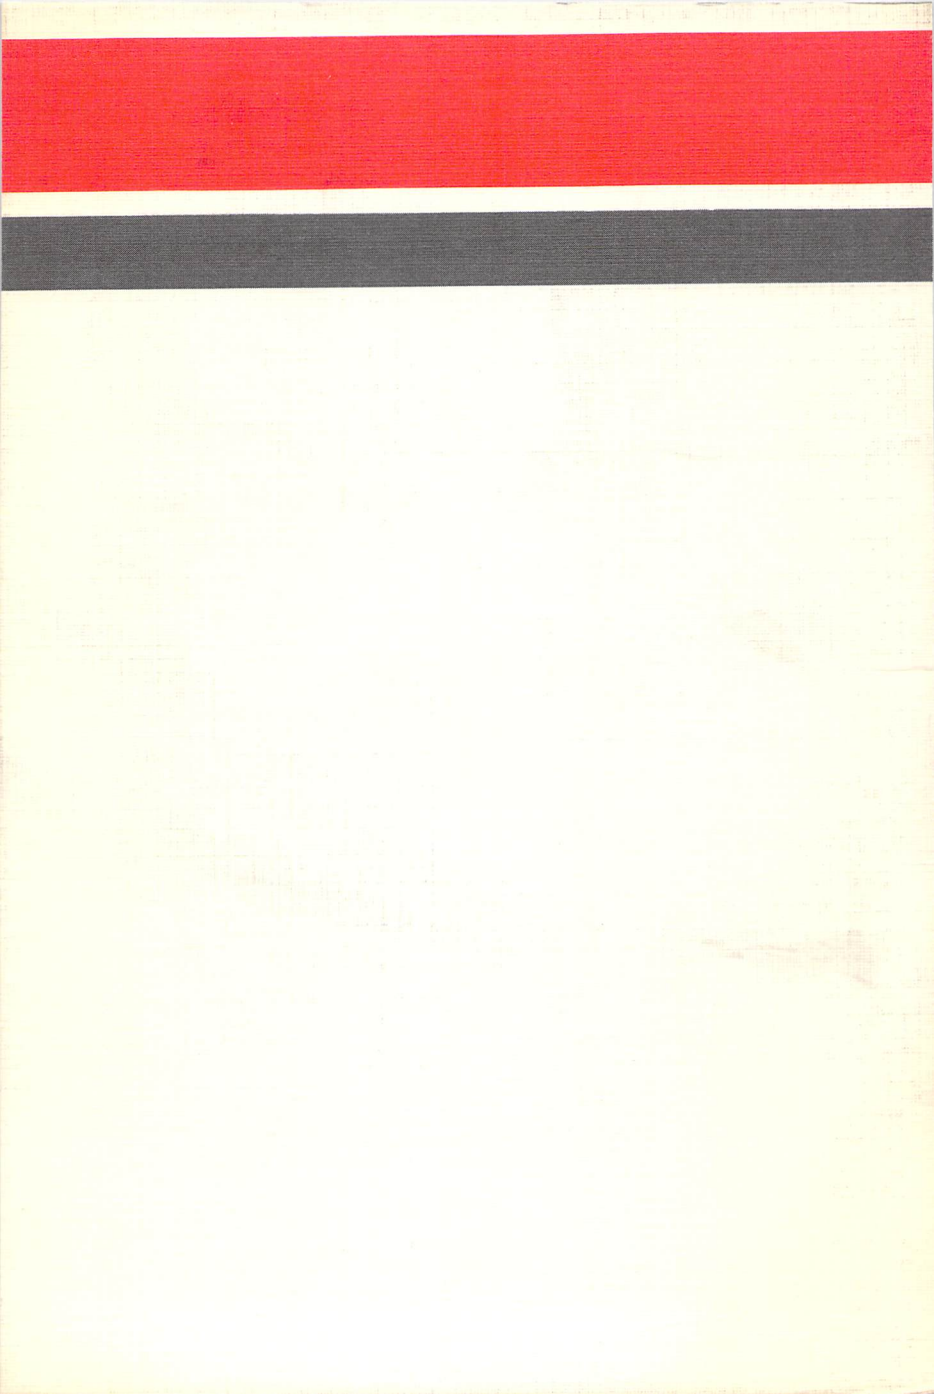

In terms of the content of the questions which you will be answering, the domains to be covered will include personality, sexual attitudes and beliefs, sexual style , sensuality and personal awareness, sexual preferences , and specific sexual behaviors which occur inside and outside the context of an intimate relationship. These questions, presented in a multiple choice format, will allow you to have a considerable degree of latitude in your responses. This should help to avoid the feeling of being "forced" into a response which does not fit. The nature of these questions will range from broad and highly-opinionated questions to highly specific and personal questions. On the one hand, you may be asked about your conception of the meaning of love, while on the other hand, you may be asked about how you specifically express that love with a partner. It is important that you maintain an optimal test-taking approach with all of these different types of questions, keeping in mind as you proceed that the Love Quest program is not designed to pass judgement or "categorize" you. Rather, the program was created to help you learn more about yourself in a private non-judgemental atmosphere.

Backups: IntraCorp, Inc. does not allow backup copies of this program. However, backups are available for a nominal fee. For more information please refer to the backup copy information in the IntraCorp licensing agreement which came with your disks.

SPECIAL THANKS FOR THE PREPERATION OF THIS PROGRAM TO:

MR. JERRY KLETKE, AND MR. ERNESTO QUANT, AND MR. DAVID POCHRON.

The Love Quest Registration Card

Please make sure that you read the Love Quest manual section entitled "Using The Love Quest National Data Bank" before completing this registration card.

To register in The Love Quest National Data Bank you must mail in this self-addressed postcard. Please be sure to put your name, (you can use a fictitious name if you like) address, (this must be real but will only be given out on your instructions), and Love Quest Code. You must also include the serial number on your Love Quest Start-Up disk. Remember, that only one purchaser per computer program can register in The Love Quest National Data Bank for **free**. However, if you wish to register other friends/family in the Data Bank you can send the additional card supplied with their names and pertinent information. (You may also request additional registration cards from IntraCorp, Inc. at 1-800-IntraCo.) The fee for non-Love Quest program owners is \$30.00. This one time fee includes registration and three names from the National Data Bank. **This fee must be included with this card if you wish to enroll in The Love Quest.** If you choose to have mail forwarded through the IntraCorp office, you must indicate this in the appropriate space on the registration card. This mail forwarding service is \$10.00 to set up and \$2.00 for each piece of mail that we forward to you. **If you wish the forwarding service you must specify your credit card number on the registration form. Since you will be charged on a per piece basis and IntraCorp, Inc. does not know how many letters you will receive (a contact may write you every day, or once a month) all charges (\$2.00 per piece) will be charged to your credit account. We regret, but cash or checks can not be accepted for this mail forwarding service.**

Please read the following terms and conditions before signing and sending in this registration card.

Please note that IntraCorp, Inc. is solely relying on the information you and others provided in making Love Quest Data Bank matches. IntraCorp, Inc. assumes no liability for any direct, incidental or consequential damages resulting in any Love Quest matches even if IntraCorp, Inc. has been advised of the possibility of such damage. Some states do not allow exclusion or limitation of incidental or consequential damages, therefore the above may not apply to you. IntraCorp, Inc. is giving out your name (and address if specified) to other Love Quest registrants only at your specific request. IntraCorp, Inc. makes no representations or warranties as to the quality of the names you will be given, or the character of the individuals in the Data Bank. In registering for The Love Quest National Data Bank you agree to specifically hold IntraCorp, Inc. and its employees and agents harmless from any damages that may result from your use of The Love Quest and The Love Quest National Data Bank. IntraCorp, Inc. makes no representations as to the size of its National Data Bank. You agree to allow IntraCorp, Inc. to charge the credit card specified above, for charges that are incurred as you use The Love Quest (eg. if you request mail forwarding, or additional names from the Love Quest database). Your signature below indicates agreement with the above terms and conditions.
